CLEAR™ has built a brand new 4G WiMax network that covers entire cities with super fast mobile internet. So you can stream TV, movies, play online games, and video chat on the go, at the same speeds you get with CLEAR at home. Try doing that with internet from the cell phone companies.

CLEAR Mobile Internet:

Use a WiMAX ready device, or simply plug the pocket-sized USB into your laptop and go.

CLEAR Home Internet:

Get online at super fast speeds with no appointment, no installation and no phone line needed. Just plug and surf.

CLEAR Home Voice:

Talk as long as you want, when you want, to anywhere in the US, Canada and Puerto Rico.

Pretty soon CLEAR will be covering your city. Interested? Here's where to go to find out how you can be one of the first to experience super fast mobile internet in your city:

Coverage not available in all areas. Service levels, features and prices may vary by rate plan. Taxes, additional restrictions, equipment and other charges apply. See clear.com for details. CLEAR is a trademark of Clear Wireless LLC and/or its affiliates. ©2009 Clear Wireless LLC.
